

# Zero bars, and hotels at 25% for this weekend in Jalisco

*After a meeting with mayors of municipalities with tourist activity, the Governor of Jalisco, Enrique Alfaro Ramírez, announced that hotels may only operate at 25% and restaurants at 50%, provided they comply with the protocols.*

## **Guadalajara Jalisco.**

After a meeting with mayors of municipalities with tourist activity, the Governor of Jalisco, Enrique Alfaro Ramírez, **announced that hotels can only operate at 25%** and restaurants at 50%, provided they comply with all protocols.

*"For those who are planning to go for a walk this weekend, the hotels cannot function more than 25% of their capacity and in common areas, and that includes cabins and other types of tourist accommodation. Second, that the restaurants cannot operate more than 50% of their capacity and respecting the protocols, it means that in the public space you cannot walk without a mask. And whoever does not bring it will be subject to an administrative sanction".*

At the meeting attended by mayors from Tapalpa, San Juan de los Lagos, Zapopan, Tequila, Jocotepec, Chapala, Guadalajara and other municipalities that participated virtually, it **was made clear that the bars will not be able to open.**

*"And I want to be very clear on that, bars cannot operate. Nor are we going to allow a restaurant bar to dress up and the message is very simple: whoever does not comply with the rules that we established to*

*take care of everyone, will be closed and will have to face the consequences of their irresponsibility, " said the president.*

He said that going on vacation implies taking the virus to other cities where it has not been watered, so he insisted that the message is serious.

*"And for all those who are thinking that they are going to go on Friday to have some tequilas, or to Jocotepec on the way to take a vampire, to those who want to go on motorcycles in Mazamitla or Tapalpa or do the Tequila tour in this municipality or to profess their faith in San Juan, we are going to enforce the rules. **We are going to tighten nuts for the good of all Jaliscienses**".*

This warning is made after the day before, Enrique Alfaro pointed out that if the pandemic does not subside, on July 15, a "dry stop" could be announced by pressing the emergency button.
